The Power of the British Motor Gun Boat

During World War II, the British Motor Gun Boat proved to be a formidable force on the seas. It was designed to counter the threats posed by German E-boats and other fast attack craft. Equipped with powerful armaments and advanced machinery, these gun boats were the epitome of naval power.

The British Motor Gun Boat boasted a range of weaponry, including torpedoes, depth charges, and machine guns. These armaments allowed the crew to engage enemy vessels effectively and protect vital convoys and shipping routes. Their impressive speed and agility made them difficult targets for the enemy, ensuring their dominance in combat.

Motor Gun Boats were the “Spitfires of the Seas” of the Royal Navy. Bristling with small-calibre guns and machine guns, they served in a variety of roles during the War. In the early war period they battled against German E-boats in the English

Channel, then went on the offensive, searching the enemy shore for targets of opportunity. At other times, they ran support for Motor Torpedo Boats and were used to deliver commandos on various raids. Naval Warfare expert, Angus Konstam, tells the story of these small, but destructive boats, beginning with their design and development and carrying through to their operational use in both the European and Mediterranean theatres of World War II.
