Are you interested in knitting but find it difficult to work with traditional needles? Loom knitting might just be the perfect solution for you! Loom knitting is a technique that uses a circular or rectangular loom instead of traditional knitting needles to create beautiful knitted items. In this article, we will explore the different types of loom knitting and provide you with some beginner-friendly knitting patterns to get started in 2021.

1. Circular Loom Knitting

Circular loom knitting is one of the most popular types of loom knitting. As the name suggests, it uses a circular loom which is a round knitting tool with pegs positioned all around the circumference. Circular looms come in various sizes, allowing you to create items of different diameters. They are perfect for making hats, socks, and cowls.

2. Rectangular Loom Knitting

Rectangular loom knitting uses a loom that has pegs positioned in a rectangular shape. This type of loom is great for creating flat items such as scarves, blankets, and shawls. It allows you to work on larger projects compared to circular looms. Rectangular looms also come in different sizes, giving you versatility in the width of your projects.

3. Sock Loom Knitting

Sock loom knitting is specifically designed for creating socks. These looms typically have a curved shape with pegs arranged in a U-shape. They include features that allow you to create a heel and toe with ease. If you're intimidated by knitting socks with traditional needles, a sock loom would be a great tool to get started.

4. Flower Loom Knitting

Flower loom knitting is a fun and decorative technique. Flower looms are typically small and round, with pegs arranged in a circular pattern. They are used to create small knitted flowers that can be used as embellishments on various projects. You can make beautiful flower brooches, hair accessories, or even use them as decorations on garments.

5. Knitting Board Loom Knitting

Knitting boards are versatile looms with two parallel rows of pegs. They allow you to create double-knit fabrics, which means you can knit two layers at the same time. This type of loom knitting is perfect for making scarves, blankets, and even garments like sweaters and cardigans.
