## Everything you need to know about your newborn baby... fast!

In the middle of the night when the baby won't stop crying, what do you do? How do you know if something serious is wrong? Why does the baby like to stay up all night in the first place? How do you know if the baby is eating enough? And how do you tell which rashes, noises, and quirks are normal, and which are a sign of a bigger problem?

Just the Basics BABY is the instruction book that should have come with your baby. Rather than wading through a big reference manual or trying to distinguish myth from reality on the internet, you can get the answers straight from a pediatrician who works with babies every day.

Dr. Tony Bakerink has been a pediatrician for 17 years and raised three children of his own. He understands your questions and concerns as a new parent. That's why he wrote this book. He gets straight to the point so you can get up to speed quickly on your new baby.

Just the Basics BABY answers your questions gives you the information you need to make good decisions and care for your child. No rhetoric, no

unnecessary details. Just the Basics, Baby!
