Imagine diving into crystal-clear water, where sunlight delicately filters through the ice, unveiling a world teeming with life. Under Pole Star's mesmerizing photographs and films depict encounters with elegant species like polar bears, narwhals, and Arctic seals. It is not just about exploration; it is also about raising awareness of the fragile ecosystem in the Arctic, highlighting the urgent need to protect and conserve these pristine environments.

The Underwater Wonder: Polar Dive

One of the most incredible experiences offered by Under Pole Star is the opportunity to take part in a polar dive. Equipped with specialized diving suits and cutting-edge technology, you can plunge into the Arctic waters to discover a realm that few have explored. The ice-cold waters will overwhelm your senses as you come face to face with the enchanting underwater life. Swimming alongside massive icebergs and vibrant marine creatures will leave you breathless and forever changed.

From the Top to the Bottom: Pole to Pole Expedition

Under Pole Star's ambitions do not stop at the Arctic. With their remarkable Pole to Pole expedition, the team plans to explore the world from top to bottom. This audacious journey will take them from the frozen Arctic to the fragile and extraordinary underwater ecosystems of the Antarctic, revealing the

interconnectedness and contrasts of our planet's poles. It is an epic odyssey that will redefine our perception of exploration.

Climate Change: Witnessing the Impact Firsthand

Under Pole Star's expeditions go beyond adventure and exploration. They aim to be witnesses of climate change, documenting the impact of global warming on the Arctic environment. By capturing the effects firsthand, they hope to raise awareness about the urgency of taking action to protect our planet. Through their remarkable journeys and stunning visual storytelling, they inspire others to become active participants in creating a sustainable future for our planet.

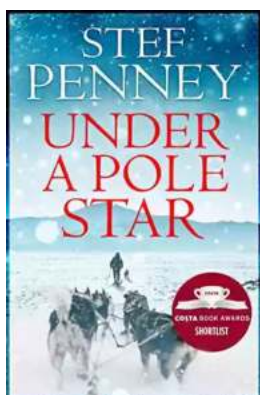

How to Get Involved

You might be wondering how you can be a part of these incredible experiences and support the invaluable work of Under Pole Star. Depending on your preferences and level of adventure, there are several ways you can get involved:

- Join their expeditions as a team member or volunteer. Under Pole Star welcomes individuals who share their passion for exploration and the environment.
- Contribute to their crowd-funding campaigns to help finance future expeditions and conservation efforts.
- Spread the word about Under Pole Star on social media platforms to raise awareness.
- Support local initiatives in Arctic communities that focus on preserving the unique ecosystems and cultures of the region.
- Most importantly, be conscious of your own actions and strive to lead a sustainable lifestyle that minimizes your carbon footprint.

Under Pole Star stands as a testament to the indomitable spirit of human exploration and our responsibility to protect the natural wonders of our planet. Through their awe-inspiring expeditions, they invite us to marvel at the Arctic's beauty, face its challenges, and take action to preserve it for future generations. Embrace the courage and commitment of Under Pole Star, and let your own adventure begin in this frozen wilderness.

'A novel of huge scope with a tremendous sense of period and place' Costa judges

'A dazzling tale of romance and survival' Guardian

Follow the path to the freezing north. Follow your ambition. Follow your heart

Flora Mackie first crossed the Arctic Circle at the age of twelve. Years later, in 1892, determination and chance lead her back to northern Greenland as a scientist at the head of a British expedition, defying the expectations of those who believe a woman has no place in that harsh world.

Geologist Jakob de Beyn was raised in Manhattan. Yearning for wider horizons, he joins a rival expedition. Jakob and Flora's paths cross. It is a fateful meeting, where passion and ambition collide and an irresistible attraction is born.

The violent extremes of the north obsess them both: perpetual night and endless day; frozen seas and coastal meadows, and the strange, maddening pull it exerts on the people trying to make their mark on its vast expanses - a pursuit of glory whose outcome will reverberate for years to come.
