

Integration, Belonging, and the Transnational Community: Exploring the Library of Modern Turkish

Welcome to the world of the Library of Modern Turkish, a vast treasure trove of knowledge and culture that transcends borders and connects individuals from across the globe. In this article, we will delve deep into the integration, sense of belonging, and the transnational community that the library fosters. With its long history and rich collection of resources, the Library of Modern Turkish stands as a testament to the power of literature and education in shaping a global Turkish identity.

Understanding Integration and Belonging

Before we dive into the Library of Modern Turkish, it is essential to grasp the concepts of integration and belonging and their significance in today's interconnected world. Integration refers to the process by which individuals from different cultural backgrounds come together and form a cohesive society. It involves the mutual adaptation between both the minority and majority communities, where shared values, language, and norms are recognized.

Belonging, on the other hand, is the sense of acceptance and identity that individuals develop within a particular community. It goes beyond mere geographical location and encompasses emotional connections, shared experiences, and a cultural bond that binds individuals together. The concept of belonging plays a pivotal role in fostering a sense of unity and shared purpose among individuals.

The 'refugee crisis' and the recent rise of anti-immigration parties across Europe has prompted widespread debates about migration, integration and security on the continent. But the perspectives and experiences of immigrants in northern and western Europe have equal political significance for contemporary European societies. While Turkish migration to Europe has been a vital area of research, little scholarly attention has been paid to Turkish migration to specifically Sweden, which has a mix of religious and ethnic groups from Turkey and where now well over 100,000 Swedes have Turkish origins. This book examines immigration from Turkey to Sweden from its beginnings in the mid-1960s, when the recruitment of

workers was needed to satisfy the expanding industrial economy. It traces the impact of Sweden's economic downturn, and the effects of the 1971 Turkish military intervention and the 1980 military coup, after which asylum seekers - mostly Assyrian Christians and Kurds - sought refuge in Sweden. Contributors explore how the patterns of labour migration and interactions with Swedish society impacted the social and political attitudes of these different communities, their sense of belonging, and diasporic activism. The book also investigates issues of integration, return migration, transnational ties, external voting and citizenship rights. Through the detailed analysis of migration to Sweden and emigration from Turkey, this book sheds new light on the situation of migrants in Europe.
