The Alphabet: Your Starting Point

The Greek alphabet may look intimidating at first, but with a little practice, you will become familiar with its letters and sounds. Like in English, each letter has a unique pronunciation, and it is essential to learn how to read and write them correctly.

Here's a table to help you get started:

Letter	Name	Pronunciation
A	Alpha	a
B	Beta	b
Γ	Gamma	g
Δ	Delta	d
E	Epsilon	e
Z	Zeta	z
H	Eta	i
Θ	Theta	th
I	Iota	i
K	Kappa	k

Remember to practice writing the letters and saying their names aloud. It's a crucial step in getting comfortable with the Greek alphabet.

Grammar Essentials

Now that you are familiar with the alphabet, let's explore some essential grammar concepts in Greek. These concepts will help you understand how words are formed and how sentences are structured in the language.

1. Nouns and Gender

In Greek, nouns are classified into three genders: masculine, feminine, and neuter. Each gender has different forms, and it is important to learn the gender of nouns along with their respective endings. Here are some examples:

Noun	English	Gender	Ending
ο άνθρωπος	man	masculine	-ος
η γυναίκα	woman	feminine	-α
το βιβλίο	book	neuter	-ο

As you progress in your Greek language learning journey, you will encounter more nouns with different gender classifications and endings. Practice is key in mastering their usage!

2. Verbs and Conjugation

Verbs play a crucial role in forming sentences. Greek verbs are inflected based on tense, voice, mood, person, and number. Here's an example of the present tense conjugation of the verb "to be":

Person	Singular	Plural
1st	είμαι (eimai)	είμαστε (eimaste)
2nd	είσαι (eisai)	είστε (eiste)
3rd	είναι (einai)	είναι (einai)

Conjugating verbs correctly is important for expressing actions and events in Greek. Practice conjugation tables regularly to solidify your understanding of verb forms and their usage.
