A colorful account of the part played by the Royal Scots Dragoon Guards in the Battle of Waterloo—and their contribution to victory over Napoleon.

One of the most iconic incidents of the Battle of Waterloo in 1815 was the charge of the Scots Greys, a crack cavalry regiment, into the heart of the French army. It was a moment of supreme daring and horse-riding skill, and Sergeant Ewart of the Greys succeeded in snatching one of Napoleon's coveted eagle standards. However, it was also a military blunder. The Greys were quickly surrounded by enemy cavalry and cut to pieces. Of the regiment's 442 officers and men almost half, 198, were killed or injured. In the end the battle was won by the British and their allies and the eagle of the French 45th regiment is now on show in Edinburgh Castle. Iain Gale brings the bare outline of this legendary military exploit to life, giving the stories of the men involved and reconstructing the prelude, the aftermath, life in the Greys and the Battle of Waterloo as a whole. It is a uniquely exciting story of courage and military tactics in the heat of war.
