"I worked for 10 years leveraging training to get people through the home remodeling nightmare but often times my training came too late. I wanted to get a larger social media presence for my business in hopes that I can reach folks before they begin the process. I set up the 10K fans program on my wife's Facebook page to get her brand out there ("Miss Mona's Advice") and show her

that people are truly interested in her idea for content. I followed Kim's instructions for both of our Facebook pages and found the instructions to be clear: 4 easy steps to start and then 2 more for local fans. In 3-4 days my page was up to 10,500 with way more engagement than in previous months and my wife's page is currently up to 8,600 fans. The interesting thing about her page is that she shared it with no one else and has had likes and shares from the fans she acquired from this 10K Fans program! We are both thrilled with the results."

"I implemented the 10K Fans program to quickly attract people to my vision and purpose. I was new to Kim's work so I wondered if it was actually possible or probable to get 10K fans in 72 hours but I needn't have worried. I was so impressed the first time, that I've done it 6 times since! I now have an audience of 67k on the first site I used it on and I'm about to use it on my new site where I have recently moved my course content. The program has given my work validation in the eyes of those visiting my site. It's hard to stand head and shoulders above other businesses online today but this is one sure way of achieving it!"

Suzi Seddon, online digital courses, www.suziseddon.com

I had a vision of building a virtual business and did not know where to start. Kim's 10,000 fan system began growing my online presence. Thank God, it was a simple step-by-step program and it works. Reality is, I was concerned with spending the money on a Facebook ad, especially if it did not work. Kim's system is extremely easy to follow and I was super excited that it really worked!!! This worked so well, that with changing my business name I have been able to build my Facebook Fans on 2 different pages thanks to Kim's system!! It gave me the social proof I needed for people to trust me more. Once they see you have 10K fans you become like E.F Hutton in your industry. People start to listen to you

more.”
