The Alpha: Discovering the Origins

Many scholars believe that the Alpha aspect of the pyramid reveals insights into the ancient civilizations that predate our known history. It is said that hidden chambers within the pyramid contain hieroglyphics and ancient artifacts that

could shed light on the lost civilizations of Atlantis or Mu. Explorers and Egyptologists have dedicated their lives in search of these chambers, hoping to uncover the Alpha of the Great Pyramid and rewrite our understanding of human history.

The Omega: Predictions of the Future

On the flipside, the Omega aspect of the pyramid has intrigued mystics and prophets who believe that the structure possesses prophetic powers.
